

## IRON DUCK SHAPED WATER FOUNTAIN SPOUT

OUT-005

A chic, Mid-Century-style antique iron fountain spout beautifully cast in the form of a duck's head with aged-bronze patina finish. Once part of a garden or water feature, it has European charm and originality, a great personality. It's a perfect architectural element for lush overgrown English-style gardens as well as modern, sleek sculptured gardens! It can also be displayed as an architectural relic on a shelf or cocktail table - perhaps topped on a stack of books. It was previously owned by an artistic rug designer, bought back from a European shopping trip. Truly one-of-a-kind, these types of "found" architectural pieces are getting harder and harder to find!

We know it's hard to find one-of-a-kind pieces! Shop our listings for new inventory curated from an Interior Architect and Designer's POV. THE TASTEMAKER SHOPPE offers an exclusive mix of furnishings founded solely on good taste, not limited by any style or era!
