SER-008

Luxurious Art-Deco style solid brass ice bucket, designed by Interior Designer Jay Jeffers. Solid heavy-weight aged-brass metal with intricate hand-etched geometric pattern and chunky side handles shaped like faceted gems in smooth shiny high-polish brass. For added luxury and convenience, this ice bucket has a thick glass insert. It was a limited-edition, which is no longer in production making it a more rare "specialty and found." Its generous size accommodates two champagne or wine bottles, perfect for lavish gatherings or intimate soirées. New, in mint condition. Perfect for a glamorous "hostess with the mostess" who likes to entertain in high-style!
