

## ANTIQUUE PAIR OF HAND-CARVED DISTINGUISHED GENTLEMEN BUST SCULPTURES

OBJ-004

A great pair of distinguished hand-carved gentlemen busts or statues! Each unique in its depiction. The artisan's skill is evident in the intricate and delicate details carved into each figure, particularly in the eyes and facial hair, which bring these gentlemen to life with a realism seldom achieved in wooden sculptures. Each glance reveals a new facet of their personalities, from the depth of thought in their expressions to the shape of their profile. It's fun to arrange them in different ways, creating new personalities from time to time! Made of solid wood, strong enough to be used as book ends. Most likely late 19th Century, but possibly older. Origin: Spain.
