

PAIR OF ART DECO ARCHITECTURAL GRATES IN BRASS AND STEEL

OBJ-022

Beautiful pair of hand-forged steel and brass grates, a rare architectural find believed to date back to the Art-Deco period. Characteristic of that era the geometric scallop pattern remains a timeless classic. Delicate brass accents are interspersed throughout the steel pattern, offering just the right amount of shine and contrast to enhance the overall aesthetic. These grates are versatile, perfect for layering different period pieces, suitable for interior and exterior installations. One grate is missing a (single) brass ornament, it remains discreet and does not detract from the overall appearance or integrity of the grate. Authentic and original architectural pieces like this are getting harder and harder to find! As a Curator and Interior Designer, these are the timeless qualities I seek – knowing it will transcend time, always in style, never trendy. A treasured find for collectors and enthusiasts of unique and one-of-a-kind pieces.
